

MY ABSOLUTE SUCCESS

PTY. LTD.

Warren A. Henningsen is an International Speaker, Author, Personal Success Mentor and expert in Personal Awareness Training. He has access to some of the greatest minds, and best information on the planet and his ability to transfer this knowledge and information is unsurpassed. A great teacher is someone who, not only passes on knowledge, but assists and guides his or her students in applying that knowledge. Warren's simple system is one that is functioned almost conversationally. His clients gain the ability of learning through a seemingly organic conversation. A mentor believes in the greatness of the individual and creates a relationship which enables each person to discover their own uniqueness. Somewhat like the days of old, where educators sifted through the mists of time to tell tales which not only entertained but taught at the same time, Warren incorporates tales and stories into his workshops which both teach and entertain simultaneously.

Warren will be covering how the mind works and how to create lasting change in both ourselves and our clients. With a deeper understanding of how thought is processed into the results that present themselves in our lives we create an ability to alter our results by altering the cause rather than trying to change the result by changing the symptoms.
